

# Solar Street Light

## Model AN-SL-8000

Power	8 000W, 10 000LM, 12 000LM
Material	Aluminum + PMMA
Parameter	Luminous Efficiency > 190lm/W, Solar Panel: 100W, Lithium Battery: 42AH, Install Height: 6 – 7m, Charging Time: 8 – 9hours, Lighting Time: >3 nights
Size (mm)	620 x 420 x 240
Characteristic	RGB Taillights Design, 360 Degree Adjustable Solar Panel, Light Control, Time Control, PIR Motion Sensor Control
Application	Street Lighting, Road Lighting, Expressway Lighting, Country Road Lighting

**NYELETI SOLAR**
